RESUME

BASAVANAGOWDA DK

Software Engineer

SUMMARY:

Full Stack Developer with 2+ years of experience in Moodle, specializing in customization, plugins, themes, and web development. Proficient in HTML, CSS, JavaScript, PHP, and MySQL for both front-end and back-end tasks. Seeking a challenging web development role to apply my skills and showcase a portfolio of successful projects.

EXPERIENCE:

Succeed Technologies Pvt. Ltd, Bangalore — F*ull Stack Developer.*

August 2022 - PRESENT

It is an e-learning company where I have worked on customizing an open-source learning platform called Moodle.

EDUCATION:

STJIT College Of Engineering, Ranebennur, Karnataka— *BE (Mechanical engineering).*

2020

I studied Mechanical Engineering and scored a CGPA of 6.9.

PROJECTS:

LMS Customization (Moodle): - Moodle is an LMS where I customized pages and features, including the creation of plugins, headers, policy pages, default login page design, implementation of the Merge API, conversion of a single Moodle into a multi-tenant Moodle, creation of custom activities, generation of reports, and configuration of user accounts and courses.

Merge API: – I implemented and integrated a unified API, 'Merge,' into the company website. Merge is a single API designed to seamlessly add hundreds of integrations to our app.

Complaints Management System: – Designed to handle POSH complaints, in this project, I worked on M Form creation for filing cases, scheduling interviews, and documenting interviews. Additionally, I implemented password-protected PDF report generation for complaints and incorporated banking-level data encryption to prevent unauthorized network access.

LinkedIn Profile: -
https://www.linkedin.com/in/basavanagowda-d-k-b6b56a1a2/

SKILLS:

- Microsoft Azure (Azure 104).
- **PHP**
- JAVA
- Agile methodology
- HTML 4 & 5.
- CSS
- **JavaScript**
- jQuery
- Bootstrap
- **MySQL**
- WordPress(basic)
- **Moodle**
- Git
- Api Integration
- Leveraging Advanced AI Tools for Enhanced Productivity

AWARDS:

Product Catalyst Award: – I was awarded the Product Catalyst Award titled 'Driving Innovation Forward' in September 2024.

Best Employee of the month: – I was awarded the title of Best Employee of the Month twice, in May 2023 and March 2024.

Best Team of the Year: – Our team received the award for the Best Team of the Year for 2022-2023.

IC Meeting Minutes Register: – Designed to Document quarterly IC Meeting minutes and to track actions.

Report Generations: - I worked on report generation in my current organization. I utilize user data to generate reports based on their selected criteria and present them in the form of PDFs, CSV files, and Excel sheets.

Policy Drafting Tool: -

1. Admin-Configurable Question Sequence Tree:

Implemented a user-friendly interface for company administrators to add, modify, or remove questions and corresponding answers within the question sequence tree.

Provided a centralized control mechanism for administrators to customize the chat bot's questionnaire based on the unique policy requirements of each client.

2. Client-Centric Chat Bot Policy Generation:

Enabled clients to utilize the chat bot for policy generation by navigating through dynamically generated questions based on the admin-defined sequence tree.

Ensured a client-specific policy outcome by capturing and processing user responses, allowing for the creation of tailored policies aligned with individual company needs.

Lime Survey Integration: -

Successfully integrated Lime Survey with the Moodle platform, utilizing APIs for efficient feedback collection.

Implemented customized features on our site to enhance the Lime Survey-Moodle integration, providing a seamless and user-friendly experience for collecting comprehensive feedback.

Sales Dashboard: -

Designed the dashboard interface to efficiently manage customer interactions and sales processes specific to the e-learning industry, including customer course licensing, invoice entry, customer call management and generation of course and level reports.

Collaborated with stakeholders to gather requirements and ensure that the dashboard meets the needs of both the sales team and executive leadership.

Contributed to the enhancement of team productivity and decision-making by centralizing sales data and providing executive-level insights through the intuitive dashboard interface.
